

# Starbrite

## Sanford Townsend Band

Thereâ€™ve been dazzling displays just for my choosing  
That I have graciously refused  
And my only romance was my amusement  
No one was the one love  
Until the night I was  
Mystified by your magic in the full moonlight  
Dazed, I was afraid for my eyesight  
Ablaze with the fire of love that night  
You came walking through the starlight â€“ Starbrite  
I climbed out on the limb of good intentions  
But my fear of falling kept me far above  
All alone Iâ€™d lie at home in sad seclusion  
No one was the one love  
til the night I was  
Mystified by your magic in the full moonlight  
Dazed, I was afraid for my eyesight  
Ablaze with the fire of love that night  
You came walking through the starlight â€“ Starbrite

Like diamonds in the sky  
On silver wings you fly  
Into my arms, into my life  
Oh my love, I was living a spiritless existence  
In animated motion, without joy or sound  
I was deceived by the disguise of my resistance (?)  
No one was the one love  
til the night I was  
Mystified by your magic in the full moonlight  
Dazed, I was afraid for my eyesight  
Ablaze with the fire of love that night  
You came walking through the starlight - Starbrite  
I was mystified by your magic in the full moonlight  
Dazed, I was afraid for my eyesight  
Ablaze with the fire of love that night  
You came walking through the starlight â€“ starbrite  
  
Mystified by the magic in your eyes.....
