

Don't Cry

Steppenwolf

Don't cry, it's gonna be alright. I'm goin' to listen to what you have to say tonight.

Oh my, did you do something wrong? You got messed up while sitting on the throne.(Chorus)

Dear ladies won't you turn a new page,

we saw your daughter's burning the stage.Look up, turn your head around. Then take a look beside you on the
ground.

Yes mam', I saw the old man. Sleeping off his trip beside two stimulation cans.(Repeat chorus)
