

Ghettoblaster

Impaled Nazarene

Firestorm - genocide
Kill them all before they kill you
Radiation - overkill
Apocalyptic truth of the year one (666)Ghettoblaster, megatron, kill!Firepower - final war
Heading for the infernal reign
Raining blood - mushroom clouds
Rats, insects, vomit and agonyGhettoblaster, nervegas, kill!Kill, fucking kill!
Make them fucking die
Kill, fucking kill
No mercy for scumOverrule - with terror and pain
As history turns the new page
666 - the year of hate
The year scum will be blown awayGhettoblaster, apocalypse, kill!
