Hands on Stance

Ignite

If you care, love something
And see it threatened
You'll get angry and fight
A scorched earth policyNature's not valued by our society
Sometimes you fight and you win
Most of the time
It's a loss up against big moniesA murderous policy
War on predators on public property
Destroy what humans have made
Like a bulldozerYou're called a vandal or a criminal
But clear cut old growth trees
You're called a logger
A miner, a businessmanStand up and fight, don't give in
Stagnant hands can't accomplish anything
I value life over property
The greedy hands stained in blood moneySometimes you fight and you win
Stand your ground don't you give in
Sometimes you fight and you win
Stand up for what you believeThe circus came to town bringing misery
White trash families
Bring the kids gawk at inhumane tragediesBeat down lions, de-toothed black bears
Elephants on the verge of insanity
Rodeo hillbillies, traveling jails
And side show circus freaksSometimes you fight and you win
Stand your ground don't you give in
Sometimes you fight and you win
Stand up for what you believeA hands on stance for what you believe
Stand your ground firm becauseSometimes you fight and you win
Stand your ground don't you give in
Sometimes you fight and you win
Stand up for what you believe
