Worried Blues

Scott Cook

I got those worried blues
And I got those worried blues
I got those worried blues
I got those worried blues
Lord, I'm a-going where I never been beforeI'm going where the chilly winds don't blow
I'm going where the chilly winds don't blow
I'm going where the chilly winds don't blow
I'm going where the chilly winds don't blow
I'm going where the climate suits my clothesHoney babe, don't leave me now
Honey babe, don't leave me now
Oh, honey babe, don't leave me now
Honey babe, don't leave me now
I got trouble in my mindListen to that cold whistle blow
Lord, listen to that cold whistle blow
Listen to that cold whistle blow
Listen to that cold whistle blow
I'm going where I'm never been beforeSo I got those worried blues, Lord
I got the worried blues
I got the worried blues
And I got the worried blues
I'm a-going where I never been before
