Fever Sleeves

Q and not U

it's the fashion self informed versus mr.
navy-blue-and-black.
it's the fashion we contract.
avocado in the neckline of the swimsuit matched just right
with the vitamins in the pocket of the swimming trunks.
cold laundry, show me out.
roll me cold me out.
is not the message.
kill me in my favorite clothes.
or dress me in your favorite clothes,
kill me with your favorite comb and then just show me out.
touch me with your fingers on your lips when the alarm goes off.
bloody shot: show me out.
roll me out cold meow.
is not the message.
sleeves collapse like this all the time.
kill me and my favorite clothes.
bloody shot: show me out.
roll me out cold meow.
is not the message.
kill me in my favorite clothes.
kill me with that favorite comb.
bloody clot sleeves collapse like this all the time.
