

This Family

Magnapop

It's time to grow
(Oh don't I know)
It's in your mind
(It's been a long time)
It's time to please
(So please hold me)
Don't go away
(I'm close and I'm far)
It's time to see it
(Then you'll believe it)
It's time to change
(Fuck with the pain)
It's lack of seasons
(That's a good reason)
It's right to run
('cause we're having fun again)
I don't know why
Why should I try
I cannot lie
I don't know why
This family's going to heaven
This family's going to hell
This family's going to heaven
This family's going to hell
Just say it clear
(Make me come near)
Believe your heart
(Live it will start)
It's in a book
(Do more than look)
It's strength I need
(Then find it in me)
I don't know why
Why should I try
I cannot lie
I don't know why
Is real
Is real
Is real

Is real

Is real

Is real

So real

This family's going to heaven

This family's going to hell

This family's going to heaven

This family's going to hell

This family's going to heaven

This family's going to hell

This family's going to heaven

This family's going to hell

This family's going to heaven

This family's going to hell
