

Wish (tony hawks pro skater 3)

Alien Ant Farm

Proud, proud is to hear it all yeah yeah
Proud ah proud, proud is to watch us fall yeah yeah
Make a wish, make a succotash wish
You live the pompous life
Throw kisses all the time
Make wishes don't break mine Cold fire used to inspire all not now
These are tired, maybe they'll find their niche
Or resort to wish Make a wish, make a succotash wish
You live the pompous life
Throw kisses all the time
Make wishes don't break mine Don't be low, you better watch the road
Don't be low, you got the strength and the balls Chimes used to break my wish
Back... won't you bring him back? Not now Don't be low, you better watch the road
Don't be low, you got the strength and the balls Chimes used to break my wish
