Smiling Faces

Incognito

Everybody that you meet
People on the street going places
Music in the air, people everywhere
Smiling facesEverybody that you meet
People on the street going places
Music in the air, people everywhere
Smiling facesEverybody that you meet
People on the street going places
Music in the air, people everywhere
Smiling facesEverybody that you meet
People on the street going places
Music in the air, people everywhere
Smiling facesEverybody that you meet
People on the street going places
Music in the air, people everywhere
Smiling facesEverybody that you meet
People on the street going places
Music in the air, people everywhere
Smiling facesEverybody that you meet
People on the street going places
Music in the air, people everywhere
Smiling facesEverybody that you meet
People on the street going places
