

# Your Mind

## Chase Johanson

Written songs, Perfect Poems  
Sounding better in your head  
Words so deep, Lost in me  
Layin' still under your bedHard to sleep, Filled with dreams  
Just thoughts, crawling between your ears  
Lucid trip, Feeling hip  
But knowing the change in the next yearsRollin' on  
Here and gone  
Feel the wave in your mindDig your feet, Feel the need  
Don't let the earth move your pitch  
Keep in tune, Watch the moon  
Ride the wave one with the pitHard to sleep, Filled with dreams  
Just thoughts, crawling between your earsRollin' on  
Here and gone  
Feel the wave in your mind  
Sleeping shores  
Falling forward  
Heed the warning of this signRollin' on  
Here and gone  
Feel the wave in your mind  
Sleeping shores  
Falling forward  
Heed the warning of this signRollin' on  
She was here and now she's gone  
Feel the wave in your mind  
Sleeping shores  
Falling forward  
Heed the warning of this sign
