Love Sick

Kill Hannah

so high in the frequencies
he's her chemical scream
but she has to breathe tonight
and can't remember the last time smiling
and so she swings to the snow on the radio
saying over and over and over
'cause it's their world outside
that they could set on fire
she wants to jump off cliffs
while holding on to you
and here we are, you're lovesick
you're lovesick
yea, just quit it
so high in the frequencies
she's his heroine dream
but he has to sleep tonight

and can't even believe he's trying
and so he's crashed by the snow of the t.v. show
turning over and over and over
'cause it's their world outside
that just smells like fire
he wants to jump like insects
flying all around you
just give it up, you're lovesick
you're lovesick, now just quit it
quit it, over and over and over
'cause its their world on fire
and it just smells like smoke
he wants to jump like insects
flying next to you so here we are
we're lovesick we're lovesick
