My Direction

Joyfull Family

Perfection is my direction, even if that's all I had
It's not like I need no correction, I just know that life's not so badPicture this everyday kids that just can't find a way
Stuck in disarray can't find hope for better days
It's the degeneration of childhood frustrationIn the last 30 years teenage suicide has increased 300% in North America
It is the second major cause of death in CanadaPerfection is my direction, even if that's all I had
It's not like I need no correction, I just know that life's not so badWhen will all my problems disappear, am I just going crazy from the fear
Oh my, oh my I'm going far past the brink
This pressure's like a weight, and I still can't think straightPerfection is my direction, even if that's all I had
It's not like I need no correction, I just know that life's not so badI've met my destinations, so what's left to complain about
With all these aggravations, building till the seams fall outI'm running my mouth dry, with every time I lie
Don't tell me without a doubt this dumbfound luck has all run out
Don't tell me without a doubt this dumbfound luck has all run outPerfection is my direction, even if that's all I had
It's not like I need no correction, I just know that life's not so bad
