

# Farther

## Ish

Nothing much matters to me, so I don't see why  
I should hold so tightly to a memory that I can't speak of  
I think about it nightly, how you opened up your life for me  
    Why are you still lonely?  
    Though not the type who begs  
    Thinkin' how you'd open up your legs  
    And farther from you everyday  
    Alright, yeah, farther from you everyday  
        Farther alright  
        And a woman's talking to herself  
        Gathers up the shit she couldn't sell  
        Chances don't bode well tomorrow  
        And talking to myself pass by  
        I miss you but not the face you make  
        Like when you found me out for the fake  
        I am so easily, you see through me  
What do you do to me to make me treat you so bad?  
    I keep hoping that you'll speak to me  
        But farther from you everyday  
        Yeah, oh yeah  
        Farther from you everyday  
        All I think about is waiting  
        And all the people we are fading into  
        Alright, farther from you everyday  
        Oh, oh, oh, oh, there was a sound, yeah, yeah  
        But I don't know how it goes, yeah, yeah  
I remember all that we went through yeah, yeah  
    Blew in from the coast, yeah, yeah, yeah  
        You are of the earth, I am of the sky  
        I don't even know what the hell that means  
        Farther from you everyday  
        All I think about is waiting  
        And all the people we are fading into  
        Farther from you everyday  
And I think about you dying years from now  
    Never having known who you are  
        Farther from you everyday  
        All I think about is waiting  
        And all the people we are fading into

Farther from you everyday  
And I think about you dying years from now  
Never having known who you are  
Farther from you everyday  
All I think about is waiting  
And all the people we are fading into  
Farther from you everyday  
And I think about you dying years from now  
Never having known who you are  
Farther from you everyday  
All I think about is waiting  
And all the people we are fading into
