

Move On

Stellastarr*

As long as i can breath,
As long as i can go,
I just had to leave before,
All the mysteries unfold,
Confrontation ??????????
Constellations in your eyes,
I'm not looking for the ?home?,
I'm just looking for the light tonight, We can build a story through the years,
A story for the age,
It's the dawnig of our lives,
It's the dawning of our day,
Saw the fuure of the world,
back in 1994,
It's the controversial thrills we adore Darling give me one more chance
I dont want your tears again tonight
I dont want to break your plans
I dont want to confuse you tonight
Darling do you need a change
Darling do you need a change
Darling move on
Move on X5 One more time
Your down under one more time X6
Your down under why why
