# I Thought I Was Found

## Caviar

Honey sweet and discreet
Your special friend is obsolete
You got stranded, you broke down
I thought I was foundDon't want it right now
Don't need it right now
Soon I'll ever think about
Wish I never find it outThe speed of sound I'm not straining
I'm wide awake and hydroplaning
Thought I was the last pronoun
I thought I was foundDon't want it right now
Don't need it right now
Soon I'll ever think about
Wish I never find it outWide awake and hydroplaning
Wide awake and all alone
Wide awake and hydroplaning
Wide awake and all alone
Wide awake and hydroplaning
Wide awake and all alone
Wide awake and hydroplaning
Wide awake and all alone
Wide awake and hydroplaning
Wide awake and all alone
I thought I wasDon't want it right now
Don't need it right now
Soon I'll ever think about
Wish I never found it, found it yeah
Found it right nowDon't want it right now
Don't need it right now
Soon I'll ever think about
And wish I never find it out
