

# Thrill Me

Ann Nesby

Impress me, excite me  
Infatuate me, yeah, yeah  
Thrill me, can you make me feel  
Everything that's real 'bout the love you give to me? Dare to be different from the rest, I'll put you to the test  
To find out if the best one is you  
Infatuate me with your talk, impress me with your walk  
Excite me with the things that you do Come on, thrill me, can you make me feel  
Everything that's real 'bout the love you give to me?  
Thrill me, you can make things right  
Come on fill my life with your love, keep thrilling me Inspired by the things I see, you gave your love to me  
So tender and affectionately  
I feel so good when I'm with you, I know you feel it too  
And that's why I surrender to you Thrill me, can you make me feel  
Everything that's real 'bout the love you give to me?  
Thrill me, you can make things right  
Come on fill my life with your love keep thrilling me Thrill me, can you make me feel  
Everything that's real 'bout the love you give to me?  
Thrill me, you can make things right  
Come on fill my life with your love, keep thrilling me Wanna be thrilled  
I want you to thrill me, that's how I feel  
Wanna be loved, thrill me, hold me, thrill me  
Console me, thrill me, come on and thrill me Will you, will you do that?  
I need somebody to thrill me  
Feel so good when you thrill me  
Baby, can you thrill me? Come on Thrill me, can you make me feel  
Everything that's real 'bout the love you give to me?  
Thrill me, you can make things right  
Come on fill my life with your love, keep thrilling me Thrill me, can you make me feel  
Everything that's real 'bout the love you give to me?  
Thrill me, you can make things right  
Come on fill my life with your love, keep thrilling me No one else can love me like you do  
No one can do the things you do  
No one else can love me like you do  
No one else can make me feel, feel the way that you do, come on Thrill me, can you make me feel  
Everything that's real 'bout the love you give to me?  
Thrill me, you can make things right  
Come on fill my life with your love, keep thrilling me Thrill me, can you make me feel  
Everything that's real 'bout the love you give to me?  
Thrill me, you can make things right

Come on fill my life with your love, keep thrilling me
