

# Cold shot

## Blueshaker

Once was a sweet thing, baby  
We held that love in our hands  
And now I reach to kiss your lips  
It just don't mean a thingAnd that's a cold shot, baby  
    Yeah that's a drag  
    A cold shot, baby  
I've let our love go badRemember the way that you loved me  
    Do anything I say  
    But now I see you out somewhere  
You won't give me the time of dayAnd that's a cold shot, girl  
    Yeah that's a drag  
    And that's a cold shot, baby  
We've let our love go badI really meant I was sorry  
    For ever causing you pain  
    You showed your appreciation  
By walking out anywayAnd that's a cold shot, baby  
    Yeah that's a drag  
    And that's a cold shot, baby  
We've let our love go badSo sad, too bad, so sad  
    Don't let our true love run cold
