

# It's Over

## Bic Runga

Everything that we make  
Has long been overrun  
Thought our love could be safe  
I know now I was wrong I tried and tried and tried again  
'Cos honey now I've had a long day in the sun  
And baby, now it's over  
And nothing can be done  
And nothing can be done I cried and cried and cried again  
I swore you were the one  
But baby, now it's over  
And nothing can be done  
And nothing can be done So run and tell your mama  
And run and tell your friends  
But baby, now it's over  
And this is where it ends
