

3AM

Mads Langer

I'll never step off the wave
Not until it crashes onto the beach
Your lovin's got me caught like a slave
Let me touch you but you're still out of reach
I'll never jump off the train
Not until it comes off the rails
I can't stop holding on to you
Oh I'm hanging by my fingernails Ride around 3am
We're making out again
I don't mind - what we do
Long as I'm inside of you
Can't deny it anymore
Babe you're worth waiting for
We can go where you choose
Long as I'm - I'm inside of you - I'm inside of you
You say you're falling in love
Loving my eyes but I can't have a name
I don't care cause you burn in my blood
And you're only adding fuel to the flame Can't blame you - but I blame you
You're the only one I got on my mind girl
Can't blame you - but I blame you
You're the only one I got on my mind Ride around 3am
We're making out again
I don't mind - what we do
Long as I'm inside of you
Can't deny it anymore
Babe you're worth waiting for
We can go where you choose
Long as I'm - I'm inside of you - I'm inside of you
3-6-5 24 - Babe you're worth waiting for
We can go where you choose
Long as I'm - I'm inside of you - I'm inside of you
Can't blame you - but I blame you
You're the only one I got on my mind girl
Can't blame you - but I blame you
You're the only one I got on my mind Ride around 3am
We're making out again
I don't mind - what we do
Long as I'm inside of you

Can't deny it anymore
Babe you're worth waiting for
We can go where you choose
Long as I'm - I'm inside of you - I'm inside of you
