

# Music Matters

## Tettero

For all those who stood up and were counted  
For all those for whom money was no motive  
For all those for whom music was a message  
I want to thank you for making me a little more sure  
    A little more wise and courageous  
    You told me to look much further  
    You told me to walk much more  
    You told me the music matters  
    And to chase the dogs back from my door  
I won't stop here, I won't be still until the sun sets on us all  
    Under the sheets with my radio turn down low  
    So nobody know it's the late night show  
    Hopin' to hear 'Hey Joe', Jimmy was my hero  
    Head blown by Type R or was it the true star?  
    From Dali Lama to Tanamo, Curtis Mayfield  
    Say Kurtis Blow singing into my pillow  
And praying I don't dose until my 9 volt battery goes  
    You told me to look much further  
    You told me to walk much more  
    You told me the music matters  
    And to chase the dogs back from my door  
I won't stop here, I won't be still until the sun sets on us all  
    You told me to look much further  
    You told me to walk much more  
    You told me the music matters  
    And to chase the dogs back from my door  
I won't stop here, I won't be still until the sun sets on us all  
    You told me the music matters  
    You told me the music matters  
    You told me the music matters  
    You told me the music matters
