

# Speechless

## Beyoncà 1%

[Chorus]

You've got me

You've got me

You've got me

You've got me speechless

Where you been, baby?

Waited for you all day

Waited for you to use the key

That opens my place

My heart starts trembling

As I hear your footsteps pace

Lock opens, doorknob turns

There appears your face

Going out' my head--I think I'm loosing all my mind

Drive me crazy burning candles, making love all night

Feels so strange--it feels so crazy to be in your world

In your arms, lost for words--you've got me

[Chorus]

Laying so closely, I feel your skin rubbing and touching me

Only sweat between us, feeling you kissing and pleasing me

I rub your back, I kiss your neck--I know that you love when we touch like that

I can feel you need me--feels so good to me, feels so good to me

Going out' my head--I think I'm loosing all my mind

Drive me crazy burning candles, making love all night

Feels so strange--it feels so crazy to be in your world

In your arms, lost for words--you've got me

[Chorus]

Yes, yes, yes

Yes, yes, yes

Speechless

All I can say is

Yes, yes, yes

All I can say is

Yes, yes, yes

Kiss me  
Hold me  
You've got me  
Speechless
