Old Fashioned

Taddy Porter

My love's old fashioned
But it still works just the way it is
This love is classic
And not just simply because I say it is
It's right on time, right on time
And it's timeless, timeless
And it'll be right here for always
My love's old fashioned
So be it, I'm set in my ways
Hush child, just listen
Don't it sound just like the good old days
Well, it's right on time, right on time

And it's timeless, timeless
And it'll be right here for always, always
My love's right one time, right on time
And it's timeless, timeless
And I'll be right here for always
Oh, people, they gather round and they wonder how
Are we in love right here and now?
I just smile 'cause true love doesn't go out of style
Oh, right on time, oh, yes
Oh, on time, oh, timeless
And I'll be here for always
