

# I'm Life

## The Fixx

I'm life, watching  
I think I can  
Measure the flow  
I could swim that river I'm fast breeding  
I think I have  
No cruise control  
I can't stop the spiral I'm sand wave, blown in the air  
I come down in raindrop  
I'm time passing  
I think I know we'll meet again  
We can climb the mountain I'm life, watching  
I think I can  
Measure the flow  
I could swim that river I'm fast breeding  
I think I have  
No cruise control  
I can't stop the spiral, spiral I'm life, watching  
I think I can  
Measure the flow  
I could swim that river Take a breath, life  
Feel it stretch, life  
Life I'm sand wave, blown in the air  
I come down in raindrop  
I'm time passing  
I think I know we'll meet again  
We can climb the mountain I'm life, watching  
I think I can  
Measure the flow  
I could swim that river I'm life, watching  
I think I can  
Measure the flow  
I could swim that river
