

Beautiful People

Bobby Vee

You've just got to be one of the most
Beautiful people in the whole wide world
It's true - it's true - it's true
And I love you You're so easy to make conversation with
And nobody else can please me that way
No one can say that you're a wallflower
Cause you've always got something groovy to say You've just got to be one of the most
Beautiful people in the whole wide world
It's true - it's true - it's true
And I love you Talk about a girl with a sweet disposition
You oughta have a room full of ribbons
And wear 'em in your hair
Every day of the week for me People turn around they know we're the happiest
People today in this whole town
And it's no wonder that they kinda wonder
If we're not the grooviest couple around You've just got to be one of the most
Beautiful people in the whole wide world
It's true - it's true - it's true
And I love you You've just got to be one of the most
Beautiful people in the whole wide world
It's true - it's true - it's true
I love you I do - I do - I do
Mmmm - I love ya You've just got to be one of the most
Beautiful people in the whole wide world
It's true - it's true - it's true
And I love you
