

Born Again

Supergrass

Ahh

Ahh

Ahh Whatever you want

It's all right

There's still a place in my heart

It's all right There's something calm

You'll need no arm

("You're over the moon")

She said You keep me warm

In some other form

("You're over the moon")

She said Whatever you want

It's all right

There's still a place in my heart

It's all right Whatever you want

It's all right

There's still a place in my heart

It's all right
