

# Kamikaze

## The Scurvies

The princess in her flower bed  
Pulled the jungle underground  
Where cherry bombs stained the blackbirds red  
And explosions never make a sound  
Oh comet, come down  
Kamikaze over me  
And I come alive  
My midnight melody  
Oh comet, come down  
My captain on a snowy horse  
Is coming back to take me home  
He's coming back to take me home  
I'm finally fighting back a terrible force  
'Cause I'm not afraid to die alone  
Oh comet, come down  
Kamikaze over me  
And I come alive  
My midnight melody  
Oh comet, come down  
Kamikaze over me  
And I come alive  
My midnight melody  
Oh comet, come down  
Oh comet, come  
Oh comet, come down  
Break down the open road  
Maybe I'll ride  
And fight back the overtow  
To save my life  
Bring in the amber glow  
Maybe I'll fly  
And go where you wanna go  
With your eagle eye  
Break down the open road  
Maybe I'll ride  
And fight back the overthrow  
To save my life  
Bring in the amber glow  
Maybe I'll fly

And go where you wanna go  
With your eagle eye  
Eagle eye, eagle eye
