

# Born to Climb

Jeff & Sheri Easter

Verse 1:

Right now you feel like you'd rather be anywhere else  
Than here where you are  
Cause life has a way of arranging your plans  
And the journey you're on is so hard

Chorus:

Oh the mountain is high  
And the road up the side is much steeper than you thought it'd be  
You're out of breath and scared half to death  
You won't have the faith to believe  
But grace, sweet grace has strengthened you time after time  
So don't be afraid of the mountain  
Cause friend, you were born to climb

Verse 2:

God has not given a spirit of fear  
Or a burden that you cannot bear  
And just at the moment you feel hope is fading  
Behold the Lord standing right there

Bridge:

You have been called to be more  
Than you were before  
Just set your sights  
On Heavenly heights  
And trust in the Lord
