All The Time In The World

Navigators

Sat outside in the parking lot
All night long 'til the sun came up
Outside the diner where you used to work
Waiting for you to walk out but you never did
No, you never did
I turned on the radio
Preacher man preaching 'bout letting go
He said, "Time can heal the broken soul"
But I swear I don't know if it ever will
If it ever will
God knows how hard I've tried
But I'm still holding on
Even though you're gone
So let the days turn to nights
Let the earth spin, let the years roll by
But I'll still be loving you
Let this road lead me on 'til the hurt is gone
But I won't forget you, girl
Even if I had all the time in the world
I took a walk out in the rain
To clear my head and get some space
But in every drop I saw your face
You seem to follow me everywhere I go
Everywhere I go
Could be a thousand miles away
But there's no distance long enough
'Cause nothing's gonna change
So let the days turn to nights
Let the earth spin, let the years roll by
But I'll still be loving you
Let this road lead me on 'til the hurt is gone
But I won't forget you, girl
Even if I had all the time in the world
All the time in the world
So let the days turn to nights
Let the earth spin, let the years roll by
But I'll still be loving you
So let the days turn to nights
Let the earth spin, let the years roll by

But I'll still be loving you
Let this road lead me on 'til the hurt is gone
But I won't forget you, girl
Even if I had all the time in the world
