Electricity

Suede

We got a love that is cold as stone
We got a love from our violent home
We got a love and it got no name
We kiss our love with lips like pain
We got a lotta electricity
We got a love like an AC/DC
We got a love and it got no shame
We kiss our love with lips like pain
Kissin' our love with lips like pain
Ah hah, it's bigger than the universe
It's bigger than the universe
It's bigger than the two of us
Ah hah hah, it's bigger than you and me
We got a love between us and it's like electricity
We got a love like a violent mind
We get our love from the white white lines
We got a love and it got no name
We kiss our love with lips like pain
We got a love from the nowhere town

We got a love like electric sounds
We got a love and it got no shame
We kiss our love with lips like pain
Kissin' our love with lips like pain
I said, "Ah hah it's bigger than the universe"
It's bigger than the universe
It's bigger than the two of us
Ah hah hah, it's bigger than you and me
We got a love between us and it's like electricity
Ah hah, it's bigger than the universe
It's bigger than the universe
It's bigger than the two of us
Ah hah hah, it's bigger than you and me
We got a love between us that is like electricity
Ah hah, it's bigger than the universe
It's bigger than the universe
It's bigger than the two of us
Ah hah hah, it's bigger than you and me
We got a love between us that is like electricity
