

# Take Me With You When You Go

## Parish Hall

Something falling, coming down fast  
Its anything ,that never comes back  
Maybe something cold  
Or maybe a love,is comin' down hold  
If you find a place,please let me know  
Take me with you when you go  
From out of nowhere, comes nothing at all  
Loneliness ,but nobody one to call  
Anything except uncertainty  
Shall be alright,alright with me  
If you find a place,please let me know  
Take me with you when you go  
So why should i be what i know i could  
You walk in,and everyone knocks on wood  
Lonely minds across the floor  
What do you what, there is no more  
If you find a place,please let me know  
Take me with you when you go  
Take me with you when you go  
take me with you when you go  
Loneliness is only time,nothing you can leave behind  
Loneliness is only time,nothing you can leave behind
