

I Need You

Eddie James

My soul longs
And even faints for You.
My heart and my flesh
Cries out for the living God.
For the living God. Incline your ear
With trembling and tears I'm yearning.
To the throne of grace
To seek Your face I'm burning
Longing for You. I need You
I need You
Nothing and no place
No one else will do. I need You. I need You.
For You satisfy the longing inside.
