Connected

Paul van Dyk

No one else will help us to get through
So by ourselves, we'll know just what to doWe are connected, we'll never be alone
We walk together forever down that roadYou and I will share all that we know
So close your eyes and just let yourself goWe are connected, we'll never be alone
We walk together forever down that road
We are connected, we'll never be alone
We walk together forever down that road, roadAnd if you fall behind and don't know what to do
I promise I'll be waiting there for you, for youFollow me into a better day
We'll be alright, no matter what they sayWe are connected, we'll never be alone
We walk together forever down that road
We are connected, we'll never be alone
We walk together forever down that road
Road, road, road
