The Promise

Strike Anywhere

This Is America yeah it's true
but everything else is false
that was taught to
me and you
but
I try to sort it out
I'll try to sort it out
with youDid you promise the world
that you'd change it?
Sounds like the way that I feel
One brick thrown, one vote alone
won't take back everything they stealwe'll take back everything they stealThis Is America yeah it's true
but everything else is false
that was taught to
me and you
but
I try to sort it out
I'll try to sort it outShake It Up
Shake me 'til I wake from the coma
All the distance
distorted and lonely too
so out of the target
so out of the target I'm pushing youPromised the world that you'd change it
Sounds like the way that I feel
One brick thrown, One vote alone
won't take back everything they stealeverything they stealWe're all walking forwardFor every treaty broken:
annihilation tokens
for every treaty broken
we'll take back everything they steal
