

# The Promise

## Strike Anywhere

This Is America yeah it's true  
but everything else is false  
that was taught to  
me and you  
but  
I try to sort it out  
I'll try to sort it out  
with you Did you promise the world  
that you'd change it?  
Sounds like the way that I feel  
One brick thrown, one vote alone  
won't take back everything they steal we'll take back everything they steal This Is America yeah it's true  
but everything else is false  
that was taught to  
me and you  
but  
I try to sort it out  
I'll try to sort it out Shake It Up  
Shake me 'til I wake from the coma  
All the distance  
distorted and lonely too  
so out of the target  
so out of the target I'm pushing you Promised the world that you'd change it  
Sounds like the way that I feel  
One brick thrown, One vote alone  
won't take back everything they steal everything they steal We're all walking forward For every treaty broken:  
annihilation tokens  
for every treaty broken  
we'll take back everything they steal
