

# Serious Times

## Gyptian

So I say, these are some serious times  
All I can see around us is just violence and crime  
Full time for us to centralize, socialize and realize  
To let the sun shine throughout everyday  
Let the moon shine through the peaceful night  
This seven time rise, seven times fall  
But I don't really believe in those falling things at all  
'Cause life continues as it goes  
If you really want to know the truth  
The truth is in being told  
So I say, these are some serious times  
All I can see around us is just violence and crime  
Full time for us to centralize, socialize and realize  
To let the sun shine throughout everyday  
Let the moon shine through the peaceful night  
This seven time rise, seven times fall  
But I don't really believe in those falling things at all  
'Cause life continues as it goes  
If you really want to know the truth  
The truth is in being told  
Some time I think it's peace and safety  
It could be yah for sudden destruction  
Seh yeh wake up dis morning, ya gotta give tunkz  
Yeh don't know if you're gonna live to see tomorrow  
Life is much more precious than gold  
Yeah, yeah, and if the truth hasn't been told  
So I say that these are some serious times  
All I can see around us is just violence and crime  
Full time for us to centralize, socialize and realize  
See all the corner, watch how you a hang out pon the corner  
A straight-time pharmacy agwann pon di corna  
On di corna, the yutes dem really nah hold no water  
  
A stray them go stray and left the border  
'Cause a domino them say them gone  
Now they can play  
And a car come in and shots start to spray  
Only innocent life can get taken away  
So I say, these are some serious times

All I can see around us is just violence and crime  
Full time for us to centralize, socialize and realize  
To let the sun shine throughout everyday  
Let the moon shine through the peaceful night  
This seven time rise, seven times fall  
But I don't really believe in those falling things at all  
'Cause life continues as it goes  
If you really want to know the truth  
The truth is in being told  
Some time I think it's peace and safety  
It could be yah for sudden destruction  
Seh yeh wake up dis morning, yeh gotta give thanks  
Yeh don't know if you're gonna live to see tomorrow  
Life is much more precious than gold  
Yeah, yeah, and if the truth hasn't been told  
So I say, these are some serious times  
All I can see around us is just violence and crime  
Full time for us to centralize, socialize and realize  
To let the sun shine throughout everyday  
Let the moon shine through the peaceful night  
This seven time rise, seven times fall  
But I don't really believe in those falling things at all  
'Cause life continues as it goes  
If you really want to know the truth  
The truth is in being told
