

Squats (Radio Edit)

Oh Snap! & Bombs Away

Yeah

You know baby doll over there
With the magnificent booty
She ain't sitting on the couch
She ain't eating no potato chips
She be out at the gym
She be out on the track
She be doing her thang

She's doing squats and working out
Squats and working out
Squats and working out
Look at how that booty shakes
Squats and working out
Squats and working out
Squats and working out
Know that booty is never fake

And I was like what's up cutie how you doing
I think that back is booming
I like the way it's moving
Side to side yeah she knew it
That thing needs no improvement
I think my mind I'm losing
It's safe to be assuming
At the gym oh yeah she's doing squats

She's doing squats and working out
Squats and working out
Squats and working out
Look at how that booty shakes
Squats and working out
Squats and working out
Squats and working out
Know that booty is never fake

Look at how that booty shakes
