

# Take Me

## Cowboy Junkies

Take me to the river  
And we'll watch the water roll  
Take me in your warmth  
And you'll fill my empty soul Come on and take me  
Take me, take me  
Come on and take me  
Take me, take me Take me to the ocean  
Where the water never runs  
Take me in your love  
And I'll be your lifetime friend Come on and take me  
Take me, take me  
Come on and take me  
Take me, take me Take me to the storm  
Where the thunder meets the light  
Take me in your gentle arms  
And I'll love you through the night Come on and take me  
Take me, take me  
Come on and take me  
Take me, take me
