

River

Year of the Rabbit

You said you could take this
You said it wouldn't get ugly again
You know, you can't meditate this
You wish it never began I want to be sober
I want to be like a river
Just let my life flow through me
But I can't connect with a loaded gun at my head You started to worry
You bent yourself to get under the hand
And now, with your shipwreck stories
You say you don't understand I want to be sober
I want to be like a river
Just let my life flow through me
But I can't connect with a loaded gun at my head
