That for You (Producer's Commentary)

Matt Wertz

I'm not made of gold
Thought I told you so
With your hopes so high
I'll tell you one more time
You'll hear me if you tryI could never be that for you
I could never be that for you
I could never take your cloudy skies and make them blue
You keep on telling me I light your day
You're hanging on to every word I say
I could never be that for you, that for youPut it on the line
Wear it on your sleeve
It's up to me now
But I'll never make your broken heart begin to beatI could never be that for you
I could never be that for you
I could never take your cloudy skies and make them blue
You keep on telling me I light your day
You're hanging on to every word I say
I could never be that for you, that for youI can't be your everything
I can not make things right
I'll tell you one more time
Maybe you'll hear me if you tryI could never be that for you
I could never be that for you
I could never take your cloudy skies and make them blue
You keep on telling me I light your day
You're hanging on to every word I say
I could never be that for you, that for youI could never be that for you
I could never be that for you
I could never take your cloudy skies and make them blue
You keep on telling me I light your day
You're hanging on to every word I say
I could never be that for you, that for you
