

Gasoline (Live Bbc)

Audioslave

House is haunted
I just want to go for a ride
Out and on
Before I set this room alight
Left alone forever and for crimes unclear
With my patience gone
Someone take me far from here Burning that gasoline New day yawning another day of solitaire
House is honest
Clearly more than I bear
Drag me off
Before I set my world on fire
Out and gone the sun will never
Set tonight Burning that gasoline No what for's, only a can
Of red says danger on it
I have found another way
Burning that gasoline Burning that gasoline
