

Squeegee Night In Canada

Dayglo Abortions

all across the country underneath the red street lights. punker's making money to buy beer on a friday night. it's squeegee night! sick of sparing change no ones gives a shit. first we'll fight the pigs later we'll get pissed. it's squeegee night! this job gets me by keeps me high. it's squeegee night in canada. all my life been told to earn an honest buck. they cut me off welfare and now i'm really fucked. it's squeegee night. trying to stay away from job related stress. got better things to do than trying to be the best. it's squeegee night. a couple more bucks we're out of here! it's squeegee night in canada!
