

Baby, Please Make a Change

Hugh Laurie

I beg you baby
Most every night
Please don't scold me
Just treat me right
Baby please make a change
Baby please make a change
Baby please make a change
I think it will do you good
Let them change an ocean
And the deep blue sea
Be kind to your baby
There be a change in me
Baby please make a change
Baby please make a change
Baby please make a change
I think it will do you good
I tell you son
That'll do you good
That'll get your man out of this neighbor hood
Baby please make a change
Baby please make a change
Baby please make a change
I think it will do you good
Well darling I'm telling you
That I ain't mad
But if you tell me again you gonna make me sad
Baby please make a change
Baby please make a change
Baby please make a change
I think it will do you good
I have forgiven all day and night
I'll end up going if you don't change my mind
Baby please make a change
Baby please make a change
Baby please make a change
I know it will do you good
Baby please make a change
Baby please make a change
Baby please make a change
I think it will do you good

Oh baby please make a change (please make a change)
Please make a change (oh please make a change)
Baby please make a change (please make a change)
Why don't you please make a change (please make a change)
Please make a change
I think it will do you good
