

All or Nothing (feat. Inami)

Dj Lesh SA

All or nothing (lyrics)

I gave you my heart
I gave you my soul
I gave you my everything
Damn I let you in and let my guard down
I finally came around
Set my feet down to the ground on laying that solid found
Damn I let you in and let my guard down
I gave you my hundred plus one and let you be the one but you burnt me in return Damn I let you in and let my guard down
I left myself behind
Put your needs above all mine but you played this heart of mine
Damn I let you in and let my guard down

(Chorus)

If this is the love that breaks hearts when you need it the most
I don't want it
I don't need it.
I don't want it
I dont
If this is the love that denies you your worth when you know it

I don't want it
No
I don't want it
I dont want it
I don't.

(Bridge)

If this is the love they say that drives you crazy insane
I don't want it
I don't need it I don't want it
If this is the love that brings out the clouds on a summer morning
I don't want it
I don't need it
I don't want it

(Spoken word)

You got that bad soul under my skin

I guess it felt right to take my heart for a spin
When I called you master and I called you king
But I guess none of that seemed to sustain this thing
This thing called love when you find the one and your dreams somehow make sense and you feel empty in their
absence. Well you got to believe in something and it's all or nothing.
