

# Return to Send Her

## Camera Obscura

Return To Send Her(Let's Get Out Of This Country EP - 2006)Don't disturb my bed is what I should have said  
When you kissed me my head started to sway  
I took your picture  
You bought me some literature  
Honey you make my dayI don't want to take advantage or do you any damage  
I'm not sure I can manage to stay awayWe have been tender  
Don't return to send her  
The love that was coming your way  
I will defend you my friend  
I won't quietly walk awayI don't want to take advantage or do you any damage  
I'm not sure I can manage to stay awayDon't be downhearted by this thing we started  
I guess that's what I'm trying to say  
I will defend you my friend  
I won't quietly walk away
