

# Happiness Is

## The Association

The world is giving you the run-around  
And leaves you feeling low and let down but  
Happiness is  
Wherever you find it  
I'm not waiting for a friend beside me  
Or for the lord above to guide me  
My happiness is  
Wherever I find it  
And I wanna find it with you  
Have you ever felt so out of place  
That the smile on your face  
Was to keep from cryin'  
I don't know how we get so out of touch  
But I don't want much  
Just to find out  
What happiness is  
While everybody else is winning  
You're stuck waiting for your new beginning  
So happiness is  
Wherever you find it  
You may be full of life's frustrations  
But I'm up for negotiations  
My happiness is  
Wherever I find it  
And I wanna find it with you  
Have you ever felt...  
If you got your lucky break and broke it  
I guess you've got your options open  
But happiness is  
Wherever you find it...yeah  
And I wanna find it with you  
Have you ever felt so out of place  
That the smile on your face  
Was to keep from cryin'  
I don't know how we get so out of touch  
But I don't want much  
Just to keep on tryin'  
People say a prayer every day  
That they end up with more than their next door neighbor

I'm not buying all their ego trips  
But I'll get my kicks  
When I find out  
What happiness is
