

Young Hearts Run

Anjulie

(Verse)

New born believers drink up all you dreamers
Runnin' the night
Suicide machines and waiting for the weekend
Fighting the fight
So stay with the good ones follow all the rules
And don't get burnt
And you turn into your mother just like every other

Girl in white(Pre-Chorus)

I tried the prototype
But the bad ones fit so right
Now I can't stop
Cause I get high on your love
I'm ravenous for your touch
No, nothing else fills me up
Cause I get high on your love(Chorus)

You

Young hearts run

You

Young hearts run Kids in the fast lane lookin' for a quick change

Runnin' in night
Eyes on the sidewalk weather making small talk
Numbin' your mind
So follow all the rules and stay with good ones
Don't get burnt
And you turn into your father just like any other

Boy in sight(Pre-Chorus)

I tried the prototype
But the bad ones fit so right
Now I can't stop
Cause I get high on your love
I'm ravenous for your touch
No, nothing else fills me up
Cause I get high on your love(Chorus)

You

Young hearts run

You

Young hearts run
