Ponies

Jason Boland & The Stragglers

Ive been running from the devil and he hasnt caught me yet
I done some things along the way I know I will regret
Chasing down that fast lane and piling up my debts
And I hear them ponies coming, coming after me
Yeah I hear the ponies coming after meThat sun was fiery yellow it was burning up my head
I couldnt quite remember exactly what she said
If I dont find her soon, well I surely will be dead
And I hear them ponies coming, coming after me
Yeah I hear the ponies coming after meChorus:
Well, an outlaw or a hero which one will I be
If I ever find the answer the truth will set me free
No one knows my name they call me John Doe number three
And I hear them ponies comin, comin after me
Yeah I hear the ponies comin after meIve been running from the devil and he hasnt caught me yet
Im just doin all I can just to get all I can get
Im taking my last dollar and Im placing my last bet
And I hear them ponies comin, comin after me
Yeah I hear the ponies comin after meChorus
