

Alive

Kid Cudi

[Chorus:]

Everytime, the moon shines I become alive, yeah
And everytime, the moon shines I become alive, yeah[Verse 1:]

I'm feeling strange in the night

I'm in myself I feel I'm thrown into a fight

Nowhere to run, nowhere to hide nothin's right

My skin is burning when my rock begins to speak

There's something going wrong with me

I am changing rapidly

I'm feeling stronger, more alert, I'm on the move

I smell her scent and I know I will find her soon (soon, soon)

The one to come and free me from this fate

I'll find her, it's not too late, hey, hey[Chorus:]

Everytime, the moon shines I become alive, yeah

And everytime, the moon shines I become alive, yeah[Verse 2:]

I'm a beast in the night

I'm on the prowl and I'm hoping to find some light

You call it heaven, I can do it for the same

Ain't nothing wrong I've been feasting on something brave

A sexy lady who's pure, she has the cure, uh

I hope she can find a man within the beast, and

I hope she saves me from the curse I have to beat, hey

I hope she figures out a way to save my soul

Yeah, to save my heart, hey[Chorus:]

Everytime, the moon shines I become alive, yeah

And everytime, the moon shines I become alive, yeahNananananananana, whoooo

Nananananananana

Nananananananana, whoooo

Nananananananana[Verse 3:]

I watch the sun collapse

And took up in the clizzoud

I am the lone wolf,

Go where I wanna

Let the moon shine be the guide to the lizzight

Even when I strayed away the light never left me, uh

I learned to follow my instinct

Talk about the light,

Rather that than the evil

Feelin out of place in a room full of people

Try and be the same but you know you're not a sequel
You're fate will be whatever it shall be (be, be, be, be)

We'll fight no more,

I let these things just be (be, be, be)[Chorus:]

Everytime, the moon shines I become alive, yeah

And everytime, the moon shines I become alive, yeah
Nananananananana, whoooa

Nananananananana

Nananananananana, whoooa

Nananananananana
