Behemoth

Electric Wizard

His blackened wings shadow the earth
This age of fire is his rebirth
Awakened now in these troubled times
He's come to judge us for our crimesBehemoth
BehemothDay of judgment, it has arrived
All you sinners, you're gonna die
The Lord has shown you the way to live
Stop your hate, you've got to giveBehemoth
BehemothWere you a slave and told what to do?
If that's so he's come for you
Did you follow? Religion is a lie
They're not afraid, you're gonna die
You're gonna dieSo change now before it's too late
Or life in servitude will be your fate
Be free, do as you will
Love and happiness, you take your fillBehemoth
