U Brighten Up My Life

One Voice

Hoping for the sun one rainy day
Wishing that the rain would go away
So many tears pouring down on me
You wrapped your arms around me
You engaged me in the depths
Hoping for this love to come my way
Lonely was the price I had to pay
I stood all alone and waited
For my prince to make me his lady
And you gave this love a chance
I haven't seen a rain or cloudy skies since I found you
I haven't seen a tear fall from my eye since I found you
I'm never home alone at night since I found you
I hope you'd never leave my sight, u brighten up my life
I've waited for so long for someone like you
And finally my dreams are coming true
We have a chance, let's take it
And if we only try we can make it in this fairy tale romance
